Description			
Hello,			
I am having an issue with the quizzes: when I enter the quiz section, the buttons don't work to select an answer. I have repeatedly exited the app to go back and try again, but they still don't work. Also, I don't know if it makes a difference but I am using the app on an iPad Pro.			
I have asked the student which app is it. Once the student gets back Ill update it here
