Description			
Basava Sowmya (user ID: 661349) is a self-serve, enrolled student from Telengana. But she has got access to GRE US. Not sure why this has happened.			
Can you please check why this has happened?			
The GRE US product does not have as much content as the India product, so it may be a problem if the student comes back asking why they don't have access to what was promised to them.
