<b>Description</b>			
<p>Rudrang Chauhan's MT4 AWA attempts didn't appear on the grading tool. It was only when we switched user and checked that we were able to find the AWA responses. Since this issue came to light only when the student brought it to the attention of the course manager, Rudrang's response went ungraded for a week.</p> <p>For now, we have graded the attempts manually. But since we have no way of tracking these issues, unless the concerned student reports them to the course manager, a recurrence of this issue would go unnoticed and therefore disrupt the servicing process.</p>
