Description			
The student's (57565 - shivamchoudhary2121997@gmail.com) AWA Mock Test 1 attempts are not appearing on the grading tool. The attempts are there on the GRE AWA sheet, but is not visible on the tool. We were able to see his attempts when we switched users.			

History

The screenshot shows the AWA Grading tool interface. At the top, there's a header for 'Galvanize Test Prep' with a search bar and a user ID '57565'. Below the header, there's a navigation bar with 'Home' and 'AWA Grading'. The main content area displays a table of student attempts with the following columns: #, Learner, Exam Date, Type, Essay Prompt, Essay, LT, Opened, Closed, GT, SME, Status, and a final column with numbers. The table contains 6 rows of data. The status of the attempts is 'Graded' for most, and 'In Progress' for one. The interface also includes pagination controls (First, Prev, Next, Last) and a search bar.

Now it's appearing for user

Issue Reason:

For the same user a broken assessment has been created last year so when the user took new assessment his old awa data was already present in delta.

I've deleted the old one and replaced it with the new attempt data.
