Description

This is a long pending issue .We have not been able to View the DT performance of a SAT student .
While there are several students who take our SAT DT which is "not restricted to enrolled students " , we check the performance of only our enrolled students .This is a long pending issue and it affects academic servicing since we do our strategizing session based on the DT performance .

I am attaching one more sample of the DT notification mail of a student .
Student name : Poorvi Banwala
Drupal id:858036
Test : SAT DT (called as SAT practice test on the portal on our homepage)
(Clicking on View performance takes us to the launch page)
