Description			
<p>Redash server seems to be very slow oflate . The GRE AWA grading sheet hasnt been showing the reccent attempts for the past few days . So we ran the redash query # 27 http://redash.entrayn.com/queries/27 and refreshed the GRE AWA garding sheet .Only then the latest attempts were loaded .. But again the redash shows the date as the date on whcih the query was run rather than the date on which the attempt was submitted . This is a RECURRING ISSUE AND A MAJOR BLOCKER FOR THE ACADEMIC TEAM.</p>
