Description

A student called Radzz Maggie has raised multiple concerns over passage features like passage arrows, highlighted text and squares (to show locations to add sentences to the passage) being missing in TOEFL Reading passages.

The following are the links to the doubts (raised under Reading Timed Test 4):

These features were working earlier, and we hadn't made any changes there. We need them fixed at the earliest so that the students are able to take these assessments properly.

The highlighted portion of the passage is not visible. In the doc that was uploaded for this passage set, the portion that needs to be highlighted is mentioned. Here is the doc link: https://docs.google.com/document/d/1SOa711HWMRTOxbNX-d8UNFBHiWUKxAgdr_-FGfFVIPE/edit.

The portion that needs to be highlighted in the passage is: "Spallanzani repeated and improved on the experiments of Jurine, and obtaining similar results, concluded that the bats' hearing was an important component of the bats' orientation and obstacle avoidance capabilities, but he could not explain how or why, because the bats appeared to be totally silent"

Here is the link to the question without the highlight: <https://app.entrayn.com/summary/4ffc43b6-17b9-4a8b-a69e-000d9b6f826b/screen/4>
