Description			
<p>I'm facing an issue while grading TOEFL essays and speaking responses. Usually when we enter the score in the box, "Your changes were not saved" appears in orange, and once we hit on submit, the message changes to "Your changes were saved". For me, these messages aren't appearing at all when I enter or submit the score the first time. When I reload the page, the essay/speaking attempt remains ungraded. Only once I enter the score and submit it the second time, it works normally.</p> <p>I tried reloading the page once. Then I'm able to submit the score the first time itself. Otherwise, the first time it does not work. The second time, it works fine, but that is after I reload the page.</p>
