Description

There seems to be an extra option that is added to the option list of a TOEFL question. In the doc that was uploaded for this passage set, there were only 4 options. Here is the doc link:

<https://docs.google.com/document/d/1vadJFZ417WtD1fBrnqqaZyP5YSybwzo8wslKpw9yKqg/edit>

The extra option that needs to be removed is Option A ("undefined"). Here is the link to the question (with the extra option):

<https://app.entrayn.com/summary/92676a79-dadc-4ee9-87ab-0e876f69a1ec/screen/5>

The current option B is supposed to be the actual option A, the current option C the actual option B, and so on.
