factor:			
Description			
<p>Hey ,</p> <p>I have been having this problem of not being able to login to any assessment on the new platform with my id .I get a blank page when I click on any assessment with my id..All along I had been using Ram sharma credentials only .I had raised in redmine long time ago but was told about cookies and instances issues etc ..But not sure if thats the exact issue .It would be good if my credentials work for new platform</p>			

History
