Only an error message appears when we submit AWA scores for the new MTs

Description Even after replacing the additional MT AWA questions with the old AWA questions, the issue with score submission persists. Only an error message appears when we submit AWA scores for the new MTs now. Thereafter, the screen just shows "submitting score" and keeps loading. This is a serious issue because we cannot be sure which scores get submitted and which don't. Please check asap.
